Theme: Atlantis

Theme: Atlantis – known in legends as state-island. No one can say with certainty the place where this country was. In fact, this site has not yet been found. Plato was convinced that Atlantis was located west of the pillars of Hercules, opposite from the mountains Atlanta. Because of the wide earthquake, in just one day, the entire island sank with all the people who lived on it – Atlants. Plato wrote that the island was created when god Poseidon, who had 10 divine sons with mortal, ordinary woman named Kleito, of whom the eldest was called Atlanta and among whom he has divided this island. The island was beautiful and very richly decorated, there were temples made of gold and silver, and around which there were a lot of divine golden statues. A magnificent imperial palace and very rich port for ships – The island was very rich, very populated and had very fertile land. This is how Atlantis was described in old books. We do not know if it is a myth or truth because there are many records about it. You can choose any variant or you can also invent your Atlantis – you can make it under water or what it looked like before the earthquake. Feel free to express your creativity and to show your skill and imagination. Very highly evaluated are figural accessories(people, animals, mythical creatures).

Conditions:

1. Work is prepared as homework and it is done earlier.
2. The master presents its work at the competition, which is done on 10 tips in different sizes(analogous to the fingers).
3. The design is done on tips before the competition(as homework) and it should be brought in a box that you can buy or make; the box should be no more than 26cm in length, in width 26cm and in height up to 7cm. It should be completely open from above.
4. It is allowed to use electrical file.
5. It is allowed to use acrylic paint.
6. Use of glitter and zircon as well as other elements for nail art design is not allowed inside nor the outside of the nail.
7. 3D details in this nomination are not allowed.
8. The materials that competitor is using can be any acryl, gel, stained-glass materials, color gel, acrylic paint.
9. It is not allowed to connect tips and making flat surfaces out of them.
10. Elements on the nails(bas-relief) should not be outputted from the nail more than 3mm.
11. The master should finish work before the competition and bring it on the day of the competition from 9AM to 10AM or send it via mail until March 1st 2015.
12. Form of the nail cube.
13. In work techniques that should be used are interior design, bas-relief design should not be greater than 3mm, and drawing with acrylic paints.
